

CALFED
BAY-DELTA
PROGRAM

Public Comment

Date Sept. 23, 1999

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

More water storage will be necessary in order to
accommodate growing state population, as agriculture
cannot afford to lose any water to environmental
causes or population increases. Conservation
of water has been accomplished in past 25 or
so years, but additional conservation cannot
be expected.
